

I would like to register my support of and for Satellite radio. I am a subscriber of XM Radio, and thoroughly enjoy the services that they provide; especially on long trips that I take. I like the option of having local weather updates, and feel that this service should not be restricted. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide me with the kind of programming that I want and and deserve.
